REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

00630/000B368-US1

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 5,704,648, granted January 6, 1998 and for which a reissue patent is sought on the invention entitled

REMOVABLY REPLACEABLE, READERABLE LABEL (REISSUE OF U.S. PATENT NO. 5,704,648)

the specification of which

☐

is attached hereto.

☒was filed on October 31, 2001 as reissue application number 10/002,950

and was amended on _____

(if applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐

by reason of a defective specification or drawing.

☒

by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐

by reason of other errors.

At least one error upon which the reissue is based is that we inadvertently claimed more than we had a right to claim with respect to independent claims 1 and 38. In independent claim 1, we claimed a removably replaceable label that is wholly or partly inoperative or invalid in view of the prior art because it fails to claim that an elongated sheet of the label has a score extending a predetermined distance from one of a first or second end of the sheet toward the other end. In independent claim 38, we claim a medical container that is wholly or partly inoperative or invalid in view of the prior art because it fails to provide that an elongated sheet of a removable replaceable readerable label of the container includes a tab portion that extends from a first end of the sheet to form a new first end of the sheet.
